

Is Michigan Trafficking in Children ??? For Federal Dollars ?

child protective services and family court
THERE IS MORE TO IT THAN YOU REALLY KNOW

*“Child Protective Services is the closest thing to the
‘GESTAPO’ in our society”Judge Darryl Mazur, Jackson County, Michigan
(MICHIGAN DOES HAVE A FEW GOOD JUDGES!)*

consider the following

- Are judges following the U.S. CONSTITUTION or are they making law from the bench?
- Does media have an obligation to report what our judges are really doing?
- **Federal Funding from Social Security Title IV is paid** to states for removing children from parents. **Every time a child enters the foster care system !** This money supports judges, court staff, therapists, counselors, doctors, police, attorneys, investigators, etc., - within the foster care system.

Thousands of parents in Michigan are fighting for the return of the children they love !!

Children’s Rights of New York is suing Michigan’s Foster Care System !
www.childrensrights.org

Michigan terminates more parental rights than any other state !!

YOUR CHILD MAY BE NEXT !

(what you never knew, just might be the end of your family!)

In Maryland, the parents of 2300 school children were ready to go to jail because the parents did not want their children vaccinated. Schools report to CPS anything that your child says about family life, or any bruise the child may have. Schools encourage the use of drugs to control children. If you object, CPS is informed.

WHAT ABOUT THE OTHER THINGS YOU DO NOT KNOW ?

IF YOU THINK IT CAN NOT AFFECT YOUR FAMILY

THINK AGAIN !

hundreds of organizations across the nation are fighting for children and parents
join with us in this fight

There are over 500,000 children in foster care – 80% should not be there !!
